

Organic Chemistry 2

Quiz #7

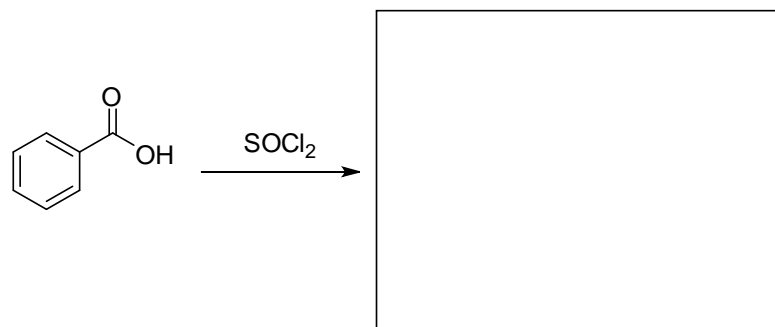

April 2, 2010

Name: _____

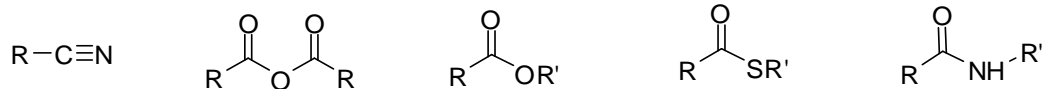

1. Show the products of the following reactions. (2 pts. each)

a) Note: there are two products and two possible combinations. You only need to draw one combination.

b)

2. Circle the most reactive acid derivative and write 'most' above it. Place a box around the least reactive acid derivative and write a big 'L' above it. (2 pts.)

R, R'=alkyl or aryl groups
