

**Clare Boothe Luce Scholarship Program
for
Mathematics Majors**

Description of the Program

Bryn Mawr College has received funding through the Clare Boothe Luce Program of the Henry Luce Foundation to cover tuition, fees, room, and board for the junior and senior years for one current sophomore math major (Class of '10). Two additional scholarships were awarded last year to math majors in the class of '09. We are seeking students who have distinguished themselves in their first 2 years at the College through excellence in coursework and a commitment to mathematics outside the classroom. Preference will be given to candidates who display an interest in conducting undergraduate research and pursuing doctoral training in mathematics or a related field.

Selected scholars will participate in a program of mentoring, leadership and outreach opportunities, and professional development activities. The scholars will regularly meet with faculty to discuss numerous topics related to obtaining a PhD and career options with advanced degrees. The CBL scholars will participate in activities such as developing a series of talks targeted to undergraduate math majors and mentoring underclassmen by serving as a PLI for a calculus course.

Restrictions

1. Recipients must be declared math majors (2nd semester sophomores) who will hold the scholarship for 2 years as long as they remain in good standing.
2. Scholarships are **merit based**; eligibility for financial aid is not a requirement.
3. Recipients must be US citizens.
4. Premedical science majors are not eligible.
5. Scholarship funds may not be used for travel or study abroad.

Application Procedures

Complete the Application Form. To complete the application process, you will need to supply the requested information on the College-Level Mathematics Courses Form, submit a statement expressing your interest in mathematics and your potential academic or career plans, have your academic dean and two mathematics professors submit a reference on your behalf, and submit proof of US citizenship.

If you have any questions, please contact Professor Lisa Traynor.

Submit all materials to Math Secretary, Betsy Cancelliere, in Park 357.

Application Deadline: Wednesday March 19, 2008, 3 pm.
