Study Questions
Chapter 14
Math 104
Fall 2015

Read pages 237 - 245 in the textbook, and then answer the following questions based on the reading.

1. What does it mean to say that two things are mutually exclusive?

2. Write the addition rule.

3. Write the observation that appears in a box on page 242.
4. What is the difference between events being mutually exclusive and events being independent?

5. When should you apply the addition rule, and when should you apply the multiplication rule?

6. What is the point of Example 6 on pages 244 - 245?
