Term Project Stage 1
Math 104
Fall 2015
Myers

**Stage 1: Brainstorm Ideas.**
What would you like to know about Bi-Co students? What kind of statistics can you find concerning college students nationwide, students at other colleges, Bi-Co students from other years, etc?

*Example:* In 2012, 55% of college students surveyed by a CBS News took at least one Advanced Placement class, and 21.7% took at least five AP courses\(^1\). Do these statistics also describe Bi-Co students today?

**Assignment:**
Brainstorm possible topics for a term project. Search the internet for related information concerning college students. What kinds of ideas or statistics can you find? Do you think Bi-Co students would produce similar or different results?
