Calculus 2 Warm-Up

Prof. Donnay
Calculus 102
Spring 2009

Group Members:

1. ___________________
2. ___________________
3. ___________________
4. ___________________

Instructions

i. Each person write your name in the list of Group Members.

ii. Go around the group and each person say your name, where you are from and one thing you did over winter break.

Person 3: You are the group manager. Read the following directions to the group.

Attached to this sheet, are sheets for each member of the group. Give each person their own sheet.

On this sheet, each person write down their response to the following:

As of yesterday, the United States has a new President. What are some of your hopes for President Obama’s administration?

You have 2 minutes in which to work on this. Get to work.

Further Directions: After two minutes, come back together as a group. Write your responses to the following on the back of this sheet.

The first person writes down one idea and explains it to the group. Then pass the sheet to the second person who writes down one of her ideas. Continue this till everyone has had a turn to write down one of their hopes.
Person 2: You are the **Group Reporter**. When called upon, you will report one of the hopes from your group’s list.
Name: _______________________

The course web page is: www.brynmawr.edu/math/people/donnay.

1. What are some of your hopes for President Obama’s administration?

**Calculus Review:**

2. What does the derivative tell us?

3. What does the integral tell us?

4. What is the relationship between the integral and the derivative?
