Rubric for Answers:

Complete Mastery:
Answer correct with all steps clearly written out. A reader can easily follow the explanation and is convinced that the answer is correct.

Near Mastery:
Write up of answer is through, demonstrating clear understanding of the material. There may be minor errors that prevent the answer from being completely correct.

Tentative:
Write up is not complete, leaving out some portions of the explanation. Answer may be correct but a reader would have to work through part of the problem herself to be sure the answer is correct. The write up by itself does not completely convince a reader that the author’s argument is correct.

Unsure:
Response indicates a major lack of understanding and/or write up does not indicate how the answer was arrived. A reader does not know if the author understands or not.
