**Project Mission:** As first generation students, we noticed that there were few resources available to us. This Praxis was created with the goal of fixing this problem by creating a program to help other First Gen Students navigate and thrive in an elite institution.

**The Facts:**

- First Generation Students make up 20% of the student body at Bryn Mawr College.

- First Generation students often don’t feel like they are meant to be at Bryn Mawr, let alone be the very best student at the College.

- The Administration does not currently have resources to provide First Gen students with the tools to take full advantage of their experience at Bryn Mawr.

**Our Goals:**

- To create a program that provides First Gen students with the tools to feel comfortable at and become leaders at Bryn Mawr.

- To increase the retention and 4 year graduation rate of first generation students at the college.

- To create a diverse space where students can feel safe talking about experiences. To build community for first gen students.

Ask us how we are doing this!
