As students adapt to a post-COVID environment, the support that many will need will be critical.

Lakeside partners with school districts throughout Montgomery, Bucks, Chester and Delaware Counties in offering and providing **In-School Counselors**. These counselors provide mental health and special education services while supporting students of all ages.

If you are a licensed mental health care professional (LSW, LCSW, LPC or LMFT), or are in the process of obtaining your license, we’d like to talk to you.

We are currently receiving resumes and interviewing for a number of In-School Counselor positions.

Lakeside, a well-respected, premier organization, offers a competitive salary and benefits package, clinical supervision, ongoing training and development, as well as a school-year work schedule.

**Please contact:**
Joyce Hofer-Medina
Director of Human Resources, at jhofer-medina@lakesidelink.com.

We’d love to hear from you today!
