The Coalition to Abolish Death By Incarceration (CADBI) is a coalition of organizations and individuals both on the inside and on the outside, working to end Death By Incarceration (Life Without Parole) in PA. In PA, all life sentences are without parole, which means folks are sentenced to die in prison.

OUR DEMANDS:
1. Parole eligibility after no more than 15 years
2. Presumptive parole: people are paroled at their eligibility date, unless the prison administration can prove serious unresolved disciplinary infractions;
3. A maximum sentencing law that will stop the commonwealth from incarcerating people for indefinite periods of time.

Learning Objectives:
- Develop an understanding of the rise of the Prison Industrial Complex.
- Develop an understanding of the landscape of prison abolitionist movements.
- Develop as an organizer.
