Annual Notice of Automatic Investment of Contributions under the Plan

To help you fund your retirement, Bryn Mawr College provides the Bryn Mawr College Retirement Plan ("Plan"). If you are enrolled in the plan and did not choose your investments by making an affirmative investment election, your contributions have been automatically allocated to the plan's "default" investment alternative. This was done after we sent you an Initial Notice. Please see below for details and answers to common questions. For additional information, you can contact your plan service provider, Transamerica, by visiting your participant website at brynmawr.trsretire.com or calling 800-755-5801.

Q. How much can I contribute to my account?
You can start contributing to your plan account or change your existing contribution level on your plan website or by contacting your plan service provider, Transamerica. Also, if you choose not to contribute to your account, Bryn Mawr College may still make contributions on your behalf as long as you remain eligible.

Your contributions to the plan are taken out of your compensation and, when designated as traditional pretax, are not subject to federal income tax at that time (as well as most states, check your own state's tax rules). Instead, they are contributed to your plan account and may grow over time with earnings. Your account will be subject to federal and state income tax (check your own state's tax rules) only when withdrawn.

You are in charge of how much you contribute, within annual limits set by the Internal Revenue Service. This limit may be annually adjusted by the IRS. The IRS limits how much you can contribute each year; the current IRS annual limit is $18,000. If you are (or will be) at least age 50 during the current calendar year, you can make additional "catch-up" contributions ($6,000) above the regular IRS annual limit for the year. Please note these limits are indexed annually by the IRS.

Your plan allows you to contribute up to the maximum allowed by law. If you are eligible to receive an employer contribution, the maximum amount of employee compensation that can be considered in calculating employer contributions to the plan is $270,000 for 2017.

Q. How will my plan account be invested?
You have the right to direct the investments within your plan account. The way contributions are invested in your account is referred to as your "investment allocation."

You can elect or change how your contributions and existing assets are invested as well as obtain information on the other investment alternatives available under the plan by contacting your plan service provider, Transamerica Retirement Solutions. Any such election or change by you, whether by making a transfer, or submitting a new investment allocation, will be considered an affirmative investment election.

Bryn Mawr College has chosen a default investment option, also known as a Qualified Default Investment Alternative (QDIA), which was selected for you in accordance with section 404(c)(5) of ERISA and other legal regulations. Even though you did not make an affirmative investment election, the plan fiduciary is not liable for any losses that result from investing your assets in the QDIA. This relief from liability applies whether or not the plan is intended to be a 404(c) plan. You have the right to transfer your investment in the default investment alternative to any other available investment alternative under the plan by contacting your plan service provider, Transamerica Retirement Solutions. Unless you choose otherwise, your account will be invested in the QDIA, Vanguard Target Retirement Funds, which is a group of single target date funds; one will be chosen based on your assumed retirement age of 65.

**Target Date Funds:** These options generally invest in a mix of stocks, bonds, cash equivalents, and potentially other asset classes, either directly or via underlying investments, and may be subject to all of the risks of these asset classes. The allocations become more conservative over time: the percentage of assets allocated to stocks will decrease while the percentage allocated to bonds will increase as the target date approaches. The higher the allocation is to stocks, the greater the risk. The principal value of the investment option is never guaranteed, including at and after the target date.

For more information about the plan default investment, additional details and individual fund profiles are available on your plan website at [brynmawr.tsretire.com](http://brynmawr.tsretire.com).

**Q. When will my plan account be vested?**
Vesting refers to your "ownership" of your account—the portion to which you are entitled even if you leave the plan. You are always 100% vested in your own contributions plus any earnings on them (including any rollover or transfer contributions you have made).

You are always 100% vested in the College Contribution.

**Q. What amounts may Bryn Mawr College contribute to my account?**

**College Contribution**
Bryn Mawr College may make a plan contribution on your behalf based on the following formula: 10% of Salary.

Please refer to your Summary Plan Description for more information on contributions and eligibility provisions included in your plan.
