

# 2021-22 Undergraduate Factbook

---

Prepared by the Office of Institutional Research, Planning, and Assessment

Data presented in this Factbook represent static snapshots of institutional data taken during the Office of Institutional Research, Planning, and Assessment's Fall Census. As such, the data presented here should be used for official reporting purposes as they have been validated and can be replicated at any time using the data warehouse (a storage of all Census snapshots).

While the Fall Census captures static data snapshots into the data warehouse, institutional data continue to be dynamic in the College's data systems beyond the Fall Census. This means that system data may be updated after the Census snapshot. The Office of Institutional Research, Planning, and Assessment encourages any individual wishing to use institutional data for research purposes to contact the Director, Richard Barry, for discussion of the most accurate approach.
