In aggregate, the College will pay approximately 89% of the total insurance premium cost over the course of the upcoming benefit year on behalf of our employees.

Since the dollar amount the College pays is the same across plans, when measured by percentages, the College’s share of the premium cost varies from 63% to 120% depending on the employee’s choice of plan and coverage type. Below is the amount of the College’s monthly subsidy for each employee:

* A negative amount as the employee contribution means the College pays the employee this amount monthly in their paycheck. An employee may choose to use this or any amount of money to fund a Health Savings Account (HSA) or a Flexible Spending Account (FSA) from which out-of-pocket medical expenses (co-pays, deductibles, co-insurance) can be paid. Additional information about how to create and fund an HSA or FSA account can be found on the Human Resources website or by contacting the HR office.
