

BRYN MAWR COLLEGE MATHEMATICS DEPARTMENT

PROBLEM SOLVING SEMINAR

The Problem Solving Seminar will meet weekly, starting on Monday, September 12th. Each week a problem(s) will be discussed. These problems will be drawn from various areas of mathematics, some quite elementary and others more advanced. Students are not expected to have any advanced knowledge of each topic, although many topics will already be familiar from courses such as calculus, geometry or algebra. The students who attend will be encouraged to participate in trying to solve these problems together and to put forward their own ideas that we can then examine. The work in the seminar may be useful for students who may wish to take the Putnam Examination in December. However, all students are welcome to join in.

***Seminar held every Monday
Beginning on September 12, 2022
7:00 p.m. to 8:00 p.m.
Park Science Building Room 337***

***Questions? Contact Professor Peter Kasius
