

# Digital Survival Skills

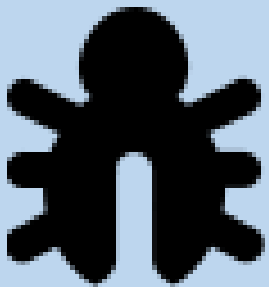

## 1.1 Networks and file management

Set up college username and connect to campus wifi

## 1.2 Metacognition and life-long learning

Decide a new app or technology is useful, and learn it

## 1.3 Troubleshooting

Fix your computer (or a friend's!)

## 1.4 Managing digital identity, privacy and security

Set up a social media account, and think about ways to stay safe online

## 1.5 Strategic web and database searching

Research and answer questions online
